Education

Haliç University

Sep 2022 – Jun 2026

Bachelor of Science in Software Engineering

Istanbul, Turkey

- **Relevant Coursework:** Data Structures & Algorithms, Artificial Intelligence, Machine Learning, Object-Oriented Programming, Software Architecture, Software Testing.
- **Graduation Project:** AI-powered E-commerce Product Intelligence Platform Featuring Automated Visual Tagging and Similarity Search.

Experience

FOMS Global

Jun 2025 – Jul 2025

Intern SAP ABAP Developer

Istanbul, Turkey

- Collaborated with senior developers to debug and refine custom ABAP programs and data structures to meet specific client requirements.
- Designed and implemented end-to-end SAP ABAP solutions, including ALV reports and SmartForms, to automate data retrieval and streamline business reporting.
- Analyzed and optimized enterprise workflows by developing custom interfaces (BAPIs/RFCs), improving data consistency and reducing manual processing time across modular systems.

Decathlon

Mar 2024 – Jun 2025

Sports Leader

Istanbul, Turkey

- Improved team performance by streamlining stock control, documentation, and performance tracking processes across the Water & Winter Sports department.
- Led sales, stock, and merchandising analysis for the Canoe & Stand Up Paddle Equipment category, increasing revenue and achieving a top-three nationwide ranking.
- Prepared departmental reports and presentations to support data-driven decisions and engaged in monthly individual meetings for continuous professional development.

Extracurricular

Samsung Innovation Campus – Artificial Intelligence Program

Nov 2025 – Jan 2026

- Completed intensive training in Machine Learning fundamentals, Data Science & Analytics, Natural Language Processing (NLP), and Computer Vision.
- Capstone Project: Satellite-Based Development Scoring & Urban Analytics with YOLOv11
- Built a deep learning pipeline using YOLOv11 to detect buildings and vehicles from xView satellite imagery.
- Applied computer vision techniques for large-scale geospatial urban analytics and development assessment.

Google AI & Technology Academy

Dec 2025 – Present

- Selected as 1 of 1,500 scholars among 31,700 applicants nationwide for the program, supported by the Republic of Turkey Ministry of Industry and Technology in collaboration with Google Turkey, Entrepreneurship Foundation, and T3 Foundation.
- Receiving multidisciplinary training in Artificial Intelligence, Data Analysis, Entrepreneurship, and Project Management, developing both technical expertise and business-oriented thinking.
- Actively participating in hands-on coding sessions and team-oriented workshops, strengthening collaborative problem-solving skills within structured training environments.

Aspire Leaders Program

Jan 2026 – Present

- Selected for a global leadership development program by Aspire Institute (a Harvard University spin-off), designed to empower high-potential, first-generation students through leadership training, masterclasses, and international networking opportunities.
- Developing skills in leadership, communication, strategic thinking, and global collaboration.

Technical Skills

Programming Languages: Python, Java, C#, ABAP, SQL.

Deep Learning Frameworks: TensorFlow, PyTorch.

ML & Data : NumPy, Pandas, Scikit-learn, OpenCV

Dev Tools: Git/GitHub, Docker.
